HIGHLIGHTS

Union Membership as a Proportion of Non-Agricultural Paid Workers (Table 1)

1. Total membership in labour organizations in Alberta in 1985 was 288,339 representing 30.9 percent of the non-agricultural paid labour force compared to membership of 298,070 and 31.9 percent in 1984.

Membership by Industry (Table 2)

2. The highest concentration of union membership is in construction and public administration. Seventy seven (77) percent of the work force are members of unions in public administration. In construction the number of union members is equal to 78 percent of the work force. However, this figure is inflated due to high levels of unemployment and the common practice of workers maintaining their union membership during periods of unemployment or while working non-union jobs. The largest group of union members (37 percent of all Alberta union members) is found in the service industry which includes education and health care services.

3. Agriculture and finance are the only industries that have no union representation.

Union Affiliation (Table 3)

4. About 132,000 union members (45.8% of all Alberta union members) belong to unions affiliated with the Canadian Labour Congress (CLC). Of these, 38,897 are also affiliated with the American Federation of Labour/Congress of Industrial Organizations (AFL/CIO).

5. The new Canadian Federation of Labour (CFL) holds the affiliation of 12.9 percent of Alberta union members.

6. There are 102,330 members (35.5%) belonging to unions unaffiliated with any national or international body compared to 98,074 (32.9%) in 1984. Of these, 6,941 members belong to unaffiliated **international** unions.

Legislation (Table 4)

7. Almost 195,000 (67.5%) of Alberta union members come under the jurisdiction of the **Labour Relations Act** while 50,437 (17.5%) come under the **Public Service Employee Relations Act.** Federal legislation provides the legal framework for 11.8 percent of Alberta union members.

Public/Private Sector (Table 5)

8. Thirty (30) percent of union membership in Alberta is in the **private** sector compared to 34 percent in 1984. By contrast, union membership in the **public** sector rose from 66 percent in 1984 to 70 percent in 1985.

9. In the private sector 14 percent of union membership is female, while in the public sector 51 percent of union membership is female.

10. Only 10.5 percent of all female union members are employed in the **private** sector while 89.5 percent are employed in the **public** sector.

Membership by Sex (Table 6)

11. Females constitute 40 percent of all union membership in Alberta while union membership is held by 28 percent of Alberta's non-agriculture paid female workers. By comparison, 34 percent of non-agricultural paid male workers are union members.

Data Sources (Table 7)

12. Seven (7) percent of Alberta union membership, represented by 57 percent of all labour organizations, was surveyed by Alberta Labour. Statistics Canada's CALURA survey captured 93 percent of the membership but only 43 percent of labour organizations. By comparison, in 1984 the CALURA survey covered 88 percent of the membership and 40 percent of the organizations.

Membership over 3000 (Table 8)

13. In 1985 there were 17 unions in Alberta with more than 3000 members. In total they represented 206,949 union members or 71.8% of Alberta membership.

14. The largest union in Alberta is the Alberta Union of Provincial Employees (AUPE) with 47,649 members.

15. Of the 17 largest unions in Alberta six reported an increase in membership since 1984 while eleven reported a decline.

16. The largest increase in membership (29.8 percent) was reported by the United Nurses of Alberta. All other reported membership increases among the larger unions was 13 percent or less.

17. The largest membership losses among large unions were reported by the United Brotherhood of Carpenters and Joiners of America (41%), Labourers' International Union of North America (29.5%) and the International Union of Operating Engineers (16.4%).

Female Membership over 1000 (Table 9)

18. In 1985, 87.7 percent of female union membership belonged to the fifteen unions which each had more than 1000 female members.

19. The unions with the largest number of female members are AUPE and the Alberta Teachers Association (ATA) with 27,827 and 23,588 female members respectively.

20. The highest concentration of female membership is found in the health care unions. Female membership is 90 percent or over in each of the following unions: United Nurses of Alberta (UNA); Alberta Association of Registered Nursing Assistants (AARNA); Health Sciences Association of Alberta (HSAA); the University of Alberta Hospital Staff Nurses Association; and the Calgary School Support Staff Association.

FOREWORD

Membership in Labour Organizations in Alberta is an annual publication providing membership and other descriptive information on unions in Alberta. For purposes of this report any organization which engages in collective bargaining with the object of concluding a collective agreement is included. This includes international, national and provincial unions as well as strictly local employee associations and academic staff associations.

Information in this publication combines the results of two surveys: the Statistics Canada Corporations and Labour Unions Returns Act (CALURA) survey and a supplementary survey conducted by Alberta Labour. The surveys requested membership figures as of December 31, 1984 or January 1, 1985 so that the data in this report represents membership at the beginning of 1985.

In comparing union membership figures from year to year (Table 1) it is important to note that in two years, 1980 and 1983, a substantial jump in membership is recorded. In 1980, for the first time, Alberta Labour conducted a supplementary survey of employee associations which significantly contributed to the noted increase; in 1983 a concerted effort was made to capture all of the organizations previously overlooked. As a result, another jump in membership was recorded but it is solely due to improved survey coverage.

Our sincere appreciation is extended to all of the organizations and individuals who co-operated by supplying requested information either through the completion of survey forms or by responding to telephone inquiries.

While every effort has been made to obtain comprehensive information, it is possible that some organizations have been overlooked and are excluded or misrepresented. Comments, corrections and other observations about any aspect of this publication are welcomed and may be forwarded to the undersigned or Nick Frans, Manager, Statistics and Information Services at (403) 427-8531.

DATA SOURCES AND METHODOLOGY

Source of Data

The membership data used as a basis for this report is derived from two surveys. Statistics Canada under authority of the Corporations and Labour Unions Returns Act (CALURA) conducts an annual survey of all labour organizations with membership of more than 100. A survey by Alberta Labour covers all other labour organizations in Alberta. Table 7 provides specific details for the current year in terms of the memberships and organizations surveyed by each.

Comparisons with Previous Years

Since 1982, tables and graphs have been included in this report which explore certain characteristics of Alberta union membership such as industry concentration, affiliation and covering legislation. The unit on which this breakdown was based in 1982 is the union local. In 1983 the unit of measurement was changed to the bargaining unit which provides much more accurate disaggregations. Therefore, comparisons of disaggregate union membership characteristics should be confined to data contained in the publications after 1982.

Notes on Individual Tables

Table 1 - Growth of Union Membership and Non-Agricultural Paid Workers
In 1980 Alberta Labour first carried out a survey supplementing Statistics Canada's CALURA survey. This contributed significantly to the increase in membership registered from 1979 to 1980. Similarly the indicated increase from 1982 to 1983 is attributable totally to improved survey coverage. Starting in 1983, membership figures should be directly comparable to those of subsequent years.

"Non-agricultural paid workers" is a statistic estimated by Statistics Canada based on the Labour Force Survey. The figures used from 1977 to 1983 were all revised in January 1984 based on 1981 Census data. Thus, these figures are not directly comparable to any published prior to 1984.

Table 2 - Union Membership as a Proportion of Paid Workers by Industry
Two factors can be identified which have potential for some misinterpretation of the data. 1. Union membership is not necessarily to be equated with "employed union member". Especially in the construction industry in recent years, union membership figures greatly exceed those actually employed; thus, "membership as a % of total paid workers", particularly in this industry, must be used with caution. 2. A similar caution applies to the "Service" industry. Union membership, particularly in education, included members who are retired or for other reasons not included in the paid labour force. This industry includes, and union membership is primarily composed of, those employed in the education and health care field. Apart from these two sectors, where membership as a proportion of total employment rivals that of public administration, union membership in the service industry is very low.

Table 3 - Union Membership by Affiliation
Affiliation is not ascertained through survey information but is generally obtained from the annual Labour Canada publication **Canada Labour Codes.**

Table 4 - Union Membership by Legislation
Beginning in 1984 firefighters are covered by the **Labour Relations Act** while police officers are covered by the **Police Officers Labour Relations Act.** Prior to this police and firefighters were covered by the same legislation.

Table 5 - Union Membership by Public/Private Sector
"Public sector" is here defined to include the following: urban transit, broadcasting, telephones and telegraph, utilities, post office, education services, hospitals and health care, welfare organizations, and all levels of government.

Table 10 - Labour Organizations in Alberta
This table lists all of the unions and associations surveyed for this report alphabetically by **key word.** Affiliation is indicated in brackets after each name. Beginning in 1984 the name, address and telephone number of a contact person for each organization is included. To facilitate comparisons the previous year's membership data are also given.

UNION ORGANIZATIONAL CHANGES, 1984 TO 1985

Additions to the Survey

The following organizations, with membership in brackets, were added to the survey in 1985:

Alberta Staff Association of Registered Nursing Assistants (9)
Banff Centre Faculty Association (15)
Baymag Employee Association (55)
Blackwoods Beverages Employee Association (80)
CEC Electric Employee Association (15)
General News Employee Association (18)
Hadley-Gram Employee Association (88)
Haven and Sunnyside Nursing Home Employee Association (110)
Labbe Interiors Employee Association (20)
Montagne Meats Employee Association (150)
National Radio Producers' Association (24)
Parkland Ambulance Authority Employee Association (20)
Pelican Spruce Mills Employee Association (85)
Tradesmen Placemen Service Employee Association (5)
Westank Willock Industries Employee Association (48)
Envirowest Industries Employees Association (12)

Deletions from the Survey

The following organizations were surveyed in 1984 but were no longer functional in 1985 and therefore were not surveyed:

Border Glass Employees Association
Madison Industrial Council
Thorhild-Westlock Nursing Home Staff Association

Name Changes

The **United Electrical, Radio and Machine Workers of Canada** is the new name for the United Electrical, Radio, and Machine Workers of America.

The **Hotel Employees and Restaurant Employees International Union** is the new name for the Hotel and Restaurant Employees and Bartenders' International Union.

The **International Brotherhood of Locomotive Engineers** is the new name for the Brotherhood of Locomotive Engineers.

The **Canadian National Police Association** is the new name of the Canadian National Railways Police Association.

Affiliation Changes

The Canadian Postmasters and Assistants Association, previously independent, is now affiliated to the Canadian Labour Congress (CLC).
